## Junior Software Developer

### WORK EXPERIENCE

#### Tegeria • Tirana • 08/2024 – 11/2024

##### Full Stack Developer • Internship

- Developed backend systems with Express.js to create reliable and efficient APIs.
- Designed and built responsive, user-friendly web interfaces using HTML5, CSS3, JavaScript, and React.js based on Figma designs. Also was introduced with basics of Typescript.
- Worked with Amazon Web Services (AWS) tools like API Gateway, Lambda, S3, and CloudFront to implement cloud-based solutions.
- Contributed as a frontend developer in a team project, combining skills in React.js, CSS, HTML, and AWS to create an engaging application.
